

ND14

Concentrated alkaline cleaner degreaser

Non-flammable, virtually odour-free

- Removes grease, oil, proteins, dirt and many other contaminants from coated, mineral and steel substrates
- Can also be used as additive for high pressure cleaning

108 SURFA ETCH®

Etching solution

Improves the adhesion of the coating

- Easy to use
- No objectionable odour or fumes
- Acidified solvent mixture
- An alternative to abrasive blasting
- Neutralises alkaline salts
- Also ideal to remove 'white rust' from galvanised steel

PEGACRETE®

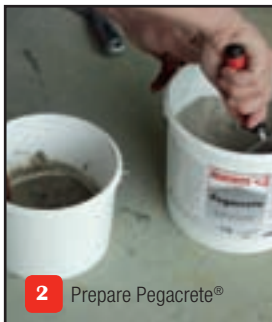

Powdered repair product on cement basis

- Quick drying and hardening
- High mechanical strength
- 100% shrink resistant
- Waterdilutable

For concrete, plaster etc. For inside and outside use.

1 Size crack to fill

2 Prepare Pegacrete®

3 Wetten

4 Fill crack
